

ORFILASTIC

A. GENERAL PRODUCT INFORMATION

ORFILASTIC is an elastic terrycloth lining material with a backing of self-adhesive open cell foam. It is used to improve air transmission of orthoses, external immobilization devices and rehabilitation aids and to ameliorate the comfort of wearing these products.

B. PRODUCT RANGE

Art. No.	Colour	Width: 50 cm wide Length: 1 m Thickness: 3 mm
35111	skin	
35117	black	

C. PRECAUTIONS BEFORE USE

- * Cut the pattern before removing the release paper from the back (direction has no importance).
- * ORFILASTIC is fixed on the inside of the orthosis, after the orthosis has been formed.
- * Remove the release paper and stick ORFILASTIC on the required area.
- * Proceed with removing the paper while sticking ORFILASTIC in the orthosis under slight pressure. The pressure must avoid the emerging of folds.
- * Make sure that ORFILASTIC does not stick back to back: this is irrevocable.

D. MAINTENANCE AND WASTE MANAGEMENT

- * ORFILASTIC is NOT waterproof and has to be replaced when necessary.
- * After use, ORFILASTIC can be disposed of with normal household waste without harming the environment.
